## Hobbies

PC Gaming

Logo Designing

Playing Instruments  
(Octapad, Tasha)

## Work Experience

○ Sep-2022 - May-2023

### Intern React Developer

Zon SoftTech, Nashik.

#### Project 1 : Orthosoft

Orthosoft is a web application develop for doctor based on React. On this project I worked as a designer as well as developer. As a designer I created a running prototype of this web application and as a developer I worked on technologies such as HTML5, CSS3, JavaScript, concepts of ES6 like let and const, data destructuring, array functions also I used JIRA, SourceTree and BitBucket to store and manage code.

#### Project 2 : Zon SoftTech Web-Application

On this project I worked as a designer. For designing I used Figma to convert clients requirements into wireframes to improve user experience.

#### Academic Project

##### Project : MCA Control Panel

This is a PHP based web application developed for college department. For this project I created a figma design and also worked on HTML, CSS, Bootstrap and MySQL.

#### Personal Project

##### Project : Portfolio Website

This is a personal portfolio website created in react. On this project I worked on different react packages like react-scroll etc and also make it mobile responsive using media queries.
